

Schlüter®-KERDI-BOARD

The universal substrate for tiles

Perfect Covering

No matter whether you work with mosaics or large format pavers, an absolutely level substrate with straight and precisely angled inside and outside corners is essential for a perfect tile covering...

... which tile installers can now create on their own, using Schlüter-KERDI-BOARD.

Those who assume responsibility (and warranty) for the tile covering also have to be responsible for the substrate. Developers, architects, and designers have to keep this in mind when contracting the work.

Schlüter®-KERDI-BOARD

The universal substrate for tiles

• On green masonry or mixed substrates

• For vanities and shelving

• On stud frame structures

• For kitchen work surfaces

• For partition walls

• For concealing pipes

• For panelling bathtub surrounds

• For creating curved wall surfaces

- Waterproof and temperature resistant
- Suitable for use on any kind of background
- Fleece webbing for anchoring in thin-bed mortar
- functional bonded waterproofing assembly

- Dust free and easy to install
- Printed gridlines for precise cutting
- Lightweight and easy to transport
- Easy to handle

- Even, impact resistant, and rigid
- Vapour retardant
- Thermally insulating
- Free of cement/fibreglass

Schlüter®-KERDI-BOARD offers the following properties:

- Even, impact resistant and rigid
- Waterproof and temperature resistant
- Functional bonded waterproofing assembly
- Vapour retardant
- Thermally insulating
- Fleece webbing for easy anchoring in thin-bed mortar
- Quick and easy to install
- Lightweight, easy to handle and transport
- Contains no cement or fibreglass
- Easy to handle
- Dust free and easy to cut (with a utility knife)
- Printed gridlines for precise cutting
- Suitable for use on any kind of background substrate
- Suitable for free standing partition walls, shelves, coverings and similar structures

Schlüter®-KERDI-BOARD Dimensions and packaging data

Panel thickness	Packaging unit (PU)	Pallet content	Size	
			125 x 62.5 cm m ² / pallet kg / panel	260 x 62.5 cm m ² / pallet kg / panel
5 mm	10 panels	14 PU	109.20	226.80
		140 panels	0.64	1.34
9 mm	10 panels	8 PU	62.40	129.60
		80 panels	0.77	1.60
12.5 mm	10 panels	6 PU	46.80	97.20
		60 panels	0.79	1.65
19 mm	6 panels	7 PU	32.76	68.04
		42 panels	0.94	1.95
28 mm	4 panels	7 PU	21.84	45.36
		28 panels	1.20	2.50
38 mm	3 panels	7 PU	16.38	34.02
		21 panels	1.44	3.00
50 mm	3 panels	5 PU	11.70	24.30
		15 panels	1.75	3.65

Substrate, structural panel, bonded waterproofing

i

Note:

Many substrates encountered in new buildings and renovation projects are unsuitable for tile installation, especially in areas with high moisture. This can require comprehensive additional work and waterproofing measures. Schlüter-KERDI-BOARD makes it easy to create an instant substrate for tile installation over substrates as diverse as masonry, stud frame constructions of wood or metal and mixed/existing substrates in renovation projects.
