SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
Trade name: Schlüter®-BEKOTEC-DPS
Article number: 3531

1.2 Relevant identified uses of the substance or mixture and uses advised against
Application of the substance / the mixture
Mineral dry mortar, to be mixed with water.

1.3 Details of the supplier of the safety data sheet
Manufacturer/Supplier: Schlüter-Systems KG
Street: Schmölestr. 7
Postal code/city: D-58640 Iserlohn
Telephone: +49 (0) 2371-971-0
Telefax: +49 (0) 5425-801-111
Information contact: sdb@schlueter.de

1.4 Emergency telephone number
out of office hours: +49 (0) 2371-971-0

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
Classification according to Regulation (EC) No 1272/2008

GHS05 corrosion
Eye Dam. 1 H318 Causes serious eye damage.

GHS07
Skin Irrit. 2 H315 Causes skin irritation.

2.2 Label elements
Labelling according to Regulation (EC) No 1272/2008
The product is classified and labelled according to the CLP regulation.

GHS05
Signal word Danger
Hazard-determining components of labelling
Cement, portland, chemicals

Hazard Statements
H315 Causes skin irritation.
H318 Causes serious eye damage.

Precautionary Statements
P101 If medical advice is needed, have product container or label at hand.
P102 Keep out of reach of children.
P103 Read label before use.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P302+P352 IF ON SKIN: Wash with plenty of water.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P315 Get immediate medical advice/attention.
P332+P313 If skin irritation occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before reuse.

2.3 Other hazards
Dust from the dry mix may cause respiratory irritation.
Repeated inhalation of relatively large amounts of dust increases the risk of lung disorders.
A highly alkaline solution is produced as soon as the dry preparation comes into contact with water or becomes moist. Due to its high alkalinity, moist mortar can cause irritation to the skin and eyes. Particularly if the mortar is in contact with the skin over a longer period (e.g. when kneeling in moist mortar), this alkalinity can cause serious damage to the skin.
The mixture is low-chromate, thus there is no risk of sensitization from chromate. In the form finished ready for use after adding water, the content of soluble chrome IV is maximum 0.0002% of the dry mass of the cement contained.
Requirement for the effectiveness of the chromate reduction is the correct dry storage and adherence of the maximum storage time.

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

SECTION 3: Composition / information on ingredients

3.2 Chemical characterisation: Mixtures
Description: Dry-mix mortar made of mineral binders and aggregates.

Dangerous components
CAS: 65997-15-1 Cement, portland, chemicals 10-25%
EINECS: 266-043-4 Eye Dam. 1, H318; Skin Irrit. 2, H315; STOT SE 3, H335
Additional information: The full wording of the H statements can be found in Section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures
After inhalation
Ensure a plentiful supply of fresh air. Consult a doctor if there is any discomfort.

After skin contact
In case of contact with skin wash off with soap and water. Consult a doctor if skin irritation persists.

After eye contact
Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing
Rinse out mouth and then drink plenty of water. Do not induce vomiting; call for medical help immediately.

4.2 Most important symptoms and effects, both acute and delayed
No further relevant information available.

4.3 Indication of any immediate medical attention and special treatment needed
No further relevant information available.
SECTION 5: Firefighting measures

5.1 Extinguishing media
   Suitable extinguishing media
   Product does not burn, fire-extinguishing activities according to surrounding.
   For safety reasons unsuitable extinguishing agents
   Water with full jet

5.2 Special hazards arising from the substance or mixture
   No further relevant information available.

5.3 Advice for firefighters
   Protective equipment
   No special measures required.
   Additional information
   Collect contaminated fire fighting water separately. It must not enter the sewage system.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
   Avoid formation of dust.
   To avoid skin and eye contact.
   Ensure adequate ventilation
   Do not breathe dust

6.2 Environmental precautions
   Do not allow the product to enter the sewer system, surface water or groundwater (raises the pH-value).

6.3 Methods and material for containment and cleaning up
   Pick up mechanically.

6.4 Reference to other sections
   See Section 7 for information on safe handling.
   See Section 8 for information on personal protection equipment.
   See Section 13 for disposal information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling
   Prevent formation of dust.
   To avoid skin and eyes contact.
   Information about fire - and explosion protection
   No special measures required.

7.2 Conditions for safe storage, including any incompatibilities
   Storage
   Requirements to be met by storerooms and receptacles
   Store only in unopened original receptacles.
   Keep container tightly closed.
   Store in dry conditions. Prevent the admittance of water and moisture.
   Information about storage in one common storage facility
   Do not store together with acids.
   Further information about storage conditions
   Always observe the manufacturer's instructions regarding storage conditions and shelf-life. If stored incorrectly (e.g. in moist conditions) or used after the expiration date, any chromate-reducing components present may lose their effectiveness, in which case sensitisation cannot be ruled out if the material comes into contact with the skin.
   Storage class
   VCI storage class: 13 - non-combustible solids.

7.3 Specific end use(s)
   No further relevant information available.
SECTION 8: Exposure controls/personal protection

Additional information about design of technical facilities: No further data; see item 7.

8.1 Control parameters
Ingredients with limit values that require monitoring at the workplace
65997-15-1 Cement, portland, chemicals (10-25%)
WEL Long-term value: 10*4** mg/m³
  *inhalable dust **respirable dust

Additional information
General dust threshold value 1,25 (A) mg/m³. The exposure threshold values are taken from the version of the TRGS 900 regulations that was valid at the time of compilation of this document.

8.2 Exposure controls
Personal protective equipment
General protective and hygienic measures
Keep away from foodstuffs, beverages and feed.
Immediately remove all soiled and contaminated clothing
Do not inhale dust / smoke / mist.
Avoid contact with the eyes and skin.
Do not eat, drink, smoke or sniff while working.
Be sure to clean skin thoroughly after work and before breaks.
Use skin protection cream for skin protection.
Use an oil-restoring skin cream after work.
Respiratory protection
If the exposure threshold values are exceeded (which could happen when mixing, for example), wear an FFP1 (white) particle-filtering half-mask.
- Protection of hands
Wear waterproof protective gloves that are wear-resistant and alkali-resistant and bear the CE mark.
- Penetration time of glove material
The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.
Eye protection
If dust is generated or if there is a danger of spray or splatter, wear tightly fitting protective goggles in accordance with EN 166.
- Body protection
Protective work clothing
-

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

General information
Appearance
Form: Like powder
Colour: Grey
Odour: Odourless
Change in condition
Melting point/Melting range: not applicable
Boiling point/Boiling range: not applicable
Flash point: not applicable
Self-igniting: Product is not self-igniting.
Danger of explosion: Product does not present an explosion hazard.

Density: Not determined.

Solubility in / Miscibility with water: Slightly soluble.

Viscosity
  Dynamic: Not applicable.
  Kinematic: Not applicable.

Organic solvents: 0.0%

Water: 0.0%

Solids content: 100.0%

9.2 Other information
No further relevant information available.

SECTION 10: Stability and reactivity

10.1 Reactivity
No further relevant information available.

10.2 Chemical stability
Thermal decomposition / conditions to be avoided
No decomposition if used according to specifications.

10.4 Conditions to avoid
Avoid water infiltration and moisture during storage.

10.5 Incompatible materials
To avoid contact with acids.

10.6 Hazardous decomposition products
No dangerous decomposition products known at correct handling and storage.

SECTION 11: Toxicological information

11.1 Information on toxicological effects
Acute toxicity
Based on available data, the classification criteria are not met.

Primary irritant effect
Skin corrosion/irritation
Causes skin irritation.

Serious eye damage/irritation
Causes serious eye damage.

Respiratory or skin sensitisation
As long as the use-by date is not exceeded a sensitising effect is not to be expected.

CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)
Germ cell mutagenicity
Based on available data, the classification criteria are not met.

Carcinogenicity
Based on available data, the classification criteria are not met.

Reproductive toxicity
Based on available data, the classification criteria are not met.

STOT—single exposure
Based on available data, the classification criteria are not met.

STOT—repeated exposure
Based on available data, the classification criteria are not met.

Aspiration hazard
Based on available data, the classification criteria are not met.
SECTION 12: Ecological information

12.1 Toxicity
   Aquatic toxicity
   No further relevant information available.

12.2 Persistence and degradability
   No further relevant information available.

12.3 Bioaccumulative potential
   No further relevant information available.

12.4 Mobility in soil
   No further relevant information available.
   Additional ecological information
   General notes
   Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water
   Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

12.5 Results of PBT and vPvB assessment
   PBT: Not applicable
   vPvB: Not applicable

12.6 Other adverse effects
   No further relevant information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods
   Recommendation
   Disposal according to official regulations.
   Must not be disposed together with household garbage. Do not allow product to reach sewage system. Remove
   in accordance with local official regulations.
   Material mixed with water and let harden.
   European waste catalogue
   17 01 01 concrete
   Uncleaned packaging
   Recommendation
   Disposal must be made according to official regulations.

SECTION 14: Transport information

14.1 UN-Number
   ADR, ADN, IMDG, IATA
   Void

14.2 UN proper shipping name
   ADR, ADN, IMDG, IATA
   Void

14.3 Transport hazard class(es)
   ADR, ADN, IMDG, IATA
   Class
   Void

14.4 Packing group
   ADR, IMDG, IATA
   Void

14.5 Environmental hazards
   Not applicable.

14.6 Special precautions for user
   Not applicable.

14.7 Transport in a bulk according to Annex II of Marpol and the IBC Code
   Not applicable.
Transport/ Additional information
ADN
Item No hazardous material as defined by the prescriptions.
UN „Model Regulation“ Void

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
Directive 2012/18/EU
Named dangerous substances - ANNEX I
None of the ingredients is listed. Restriction 40
National regulations
Other regulations, limitations and prohibitive regulations
- - -

15.2 Chemical Safety Assessment
A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Relevant phrases
H315 Causes skin irritation.
H318 Causes serious eye damage.
H335 May cause respiratory irritation.
